

Product Data Sheet

Argosy DA-110/25 Pair 110 OHM Blue LSOH

Description

DA110 multi-channel twisted pair digital audio cables manufactured for Argosy by Draka. These cables are available in 5, 10 & 25 pair versions. The solid 110Ω conductors are suitable for IDC punch down applications, therefore making it the ideal solution for jackfield to Krone applications. All sizes have blue LSOH jackets as standard and are supplied on 500m drums.

Application

These types of cables are ideally suited for fixed multi channel AES/EBU installations.
