Product Data Sheet
SIMPLY45® Universal Crimper

Description

Simply45® Pass-Through RJ45 Crimp Tool for UTP & Internal Ground Shielded Pass Through RJ45 Mod Plugs.

Product	SKU
SIMPLY45® UNIVERSAL CRIMPER	MA-99-9950

Simply45® Universal Crimper Features:

Locking Crimp Socket. The S45-C100 Heavy Duty Crimp Tool features a locking socket to securely hold the RJ45 modular plug in the correct position for crimping.	Synchronised Handles with ergonomic grip = More Force with Less Hand Fatigue. With even force distribution on the connector IDC contacts.
Sliding Tool Lock. To hold the crimp tool in its closed position when not in use. This prevents the crimp tool from inadvertent opening.	Steel Reinforced for Greater Stability. For durability over time.
Ratcheted for Full Compression Cycle. Prevents incomplete plug termination.	Improved Trimming Blade Design. To deliver consistent flush-to-the-plug wire trimming over time.

Product Data Sheet
SIMPLY45® Universal Crimper

EASY BLADE REPLACEMENT
Replacing the trimming blade is quick and easy

ENGRAVED TYPE A/B WIRING GUIDE
Pattern wire alignment chart written from 8 to 1 to match how plug is inserted into tool.

DELIVERS MORE TORQUE
during crimping cycle than other tools

ERGONOMIC GRIP
Reduces hand fatigue and slippage

Technical Specification

Crimper Specification	
Crimps SIMPLY45™ RJ45 Plugs and SIMPLY45™ Boots in one easy step	Ergonomic grip reduces hand fatigue and slippage
Maintains wire pair twist synchronisation at termination for improved cable performance	Engraved Type A/B wiring guide
Multi-Functional – Cuts the wire, strips the jacket, trims and crimps	Precision manufactured to be durable and corrosion resistant
Delivers more torque during crimping cycle than other tools	Works with other pass through RJ45 modular plugs such as Platinum Tools EZ-RJ45®
Ratcheted for full cycle compression and uniform crimping	Not for use with standard (non-pass through) RJ45 modular plugs
Easy blade replacement keeps your tool working flawlessly	Limited 2 Year Warranty
