

Product Data Sheet

Argosy RJ45 Strain Relief Boots 6mm

Description

These durable RJ45 strain relief boots are perfect for Structured wiring cables with an overall diameter of 6mm. They prevent damage when fitted around RJ45 modular plugs providing effective strain relief by controlling the bend radius of the cable when the cable is connected, and protect the connector latch from snagging and subsequent damage.

The boots are RoHS compliant.

Available in Black, Brown, Red, Orange, Yellow, Green, Blue, Purple, Grey, and White colours.

Key Benefits

- Standard RJ45 Boot for cables up to 6mm
- Available in 10 colours
- Compatible with Standard RJ45 Connectors
- Material PVC
