

Product Data Sheet

Barnfind BT-LX-SM-12G10

Description

SFP modules have become a standard in networking due to their flexibility, scalability, and ease of use. They play a crucial role in building and expanding modern data and communication networks.

The range of Barnfind SFP modules can be inserted into other products like BTF1-02 and BarnMini-22. This offering of modules is known to work within the requirements set by the industries.

Product	SKU
BARNFIND BT-LX-SM-12G10	RE-99-0026

Technical Specification

Barnfind BT-LX-SM-12G10 Specification

Max. Data Rate: 12Gbps

Wavelength (nm): 1310nm

Distance: 10km

Compatible: 12G/6G/3G/HDSDI
