

Product Data Sheet

Argosy BNC HDTV Crimp Plug for IMAGE 1000

Description

Specifically for 4K UHD TV applications, the high-performing 12G 75-ohm BNC crimp connector has extremely low return loss and is ideal for 12GHz frequencies.

Designed for Argosy IMAGE 1000, Belden 1694A, 1694F & 1694ANH cables, the male plug has a nickel-plated zinc alloy body, gold-plated brass pin, with Zinc plated brass Bayonet coupling nut.

With a maximum frequency of 12GHz, the plug can resist temperatures between -55 to 85°C and are durable for up to 500 mating cycles.

Product Data Sheet

Argosy BNC HDTV Crimp Plug for IMAGE 1000

Technical Specification

Argosy BNC HDTV Crimp Plug IMAGE 1000 Specification

For Cables: Argosy Image 1000, Belden 1694A, 1694F & 1694ANH	Cable Retention: Equal to breaking the strain of cable
Fixing: Crimp	Dielectric Withstanding: 1500V RMS Max.
Body: Zinc Alloy, Nickel Plated	Durability: 500 mating cycles
Coupling Nut: Zinc Alloy, Nickel Plated	Impedance: 75Ω
Captive Pin: Yes	Max. Frequency: 12GHz
Dielectric: Delrin	Temperature: -55 to 85°C
Ferrule: Brass, Nickel Plated	Working Voltage: 500V RMS Max.
Pin: Brass, Gold Plated
