Belden 7804EPU PUR Lemo FUW - PUW

Description

Industry standard HDTV camera cable assemblies are used for the connection of Professional HD cameras to the CCU. Cables are assembled using Lemo 3K93C connectors which conform to SMPTE 304m on a choice of premium cables conforming to SMPTE 311m.

Cables are available in sizes from 1m to 500m, lengths 100m and above supplied on a single use wooden drum. Argosy also offers a range of deployable hand winches, or skeleton drums, which assemblies can be supplied on.

All assemblies are manufactured in-house and undergo stringent quality control processes. Every cable is measured for insertion and return loss and consistently performs above industry standards. Additionally, all optical termini are 3D mapped and checked for conformance to EN 61300-3-23. Argosy is a certified Lemo termination partner.
