

Product Data Sheet

Enova Male 3 Pole XLR - Black

Description

Enova 3-pin XLR connectors are the ideal choice for those seeking high quality audio and video connections. The connectors are designed for professional use and provide excellent signal transmission for studio environments, stages and other commercial facilities.

This cable connector has three contacts and a well-formed and robust button for a better user experience. It has a triple-positioned clamp to prevent the inner cable from twisting and breaking.

Product	SKU
ENOVA MALE 3 POLE XLR - BLACK	DA-00-0003

Key Benefits

- This removable clamp is designed for multiple cable types
- Remove the outer diameter washers: 3.3 to 4.8 mm
- Standard connection for outside diameter: 5.0 to 6.5 mm
- Remove the outer diameter clamp: 6.5 to 7.0 mm
- Reliable locking: Tighten with the zinc shell nut
- Inner lock hole design for longer life of the plug
- Length: 75.1 mm x Width: 22 mm x Height: 22 mm

Product Data Sheet

Enova Male 3 Pole XLR - Black

Technical Specification

Enova Male 3 Pole XLR - Black Specification

Version (Plug / Chassis): Cable Version	Working temperature minimum: -30°C
Connector type: XLR, XLR male 3 pol	Working temperature maximum: +80°C
Number of contacts: 3	Plug cycle: 1000
Gender (M / F): Male plug	Classification flammability of plastics: UL94HB
Connector housing colour: Black	ROHS according to EN62321-1: Ja
Cable diameter min. in mm: Ø 3.3 mm	Country of origin: China
Cable diameter max. in mm: Ø 7 mm	Operating voltage (VAC.RMS): < 50 V
Wiring mode: Solder contact	Insulation resistance: > 10 GΩ
Material connector housing: ZZNAL4-1	Contact resistance: ≤ 3 mΩ
Material contact: H59-1	Applications: DJ, Keyboard player, Lighting technician, Singer, Sound engineer
