

Product Data Sheet

Enova Female 3 Pole XLR - Black

Description

Enova 3-pole XLR connectors are the ideal choice for those seeking high quality audio and video connections. The connectors are designed for professional use and provide excellent signal transmission for studio environments, stages and other commercial facilities.

This cable connector has three contacts and a well-formed and robust button for a better user experience. It has a triple-positioned clamp to prevent the inner cable from twisting and breaking.

Product	SKU
ENOVA FEMALE 3 POLE XLR - BLACK	DF-00-5031

Key Benefits

- This removable clamp is designed for multiple cable types
- Remove the outer diameter washers: 3.3 to 4.8 mm
- Standard connection for outside diameter: 5.0 to 6.5 mm
- Remove the outer diameter clamp: 6.5 to 7.0 mm
- Reliable locking: Tighten with the zinc shell nut
- Inner lock hole design for longer life of the plug
- Length: 78 mm x Width: 22 mm x Height: 22 mm

Product Data Sheet

Enova Female 3 Pole XLR - Black

Technical Specification

Enova Female 3 Pole XLR - Black Specification

Version (Plug / Chassis): Cable Version	Waterproof component: Silicone
Connector type: XLR, XLR female 3 pol	Working temperature minimum: -30°C
Number of contacts: 3	Working temperature maximum: +80°C
Gender (M / F): Female connector	Plug cycle: 1000
Connector housing colour: Black	Classification flammability of plastics: UL94HB
Cable diameter min. in mm: Ø 3.3 mm	ROHS according to EN62321-1: Ja
Cable diameter max. in mm: Ø 7 mm	Country of origin: China
Wiring mode: Solder contact	Operating voltage (VAC.RMS): < 50 V
Insulation component: High performance plastics	Insulation resistance: > 10 GΩ
Material connector housing: ZZNAL4-1	Contact resistance: ≤ 3 mΩ
Material contact: Phosphor Bronze	Applications: DJ, Keyboard player, Lighting technician, Singer, Sound engineer
