

Product Data Sheet

Argosy DA-110/S AES 110R Blue LSOH

Description

Manufactured for Argosy by Draka Prysmian, the DA110/S is a stranded twisted pair digital audio cable ideal for jackfield to Krone applications.

This cable is for fixed installation wiring, consisting of 2 twisted conductors with foil screen and drain, the foil is bonded to the outer jacket to speed up cable termination. This cable is available in Black PVC or Blue LSOH, standard drum size is 500m.

Product	SKU
ARGOSY DA-110/S AES 110R BLUE LSOH- 100M	104911
ARGOSY DA-110/S AES 110R BLUE LSOH- 500M	100652

Technical Data

Argosy DA-110/S AES 110R Blue LSOH

Conductor: 7/0.20 Tinned Copper Wire

Velocity Ratio: 78%

Screen: AL PET with 7/0.2 Drain

Attenuation @ 6MHz: 6.6dB/100m

Impedance: 110 Ω

Jacket: PVC or LSOH Bonded to Foil

Capacitance, Core – Core: 38 pF/m

OD: 4.4mm

Resistance: 85 Ω /km

Weight: 25kg/km
