

Product Data Sheet

Argosy DA-110/5 Pair 110 OHM Blue LSOH

Description

DA110 multi-channel twisted pair digital audio cables manufactured for Argosy by Draka. These cables are available in 5, 10 & 25 pair versions. The solid 110Ω conductors are suitable for IDC punch down applications, therefore making it the ideal solution for jackfield to Krone applications. All sizes have blue LSOH jackets as standard and are supplied on 500m drums.

Application

These types of cables are ideally suited for fixed multi channel AES/EBU installations.

Product	SKU
ARGOSY DA-110/5 PAIR 110 OHM BLUE LSOH - 100M	100669
ARGOSY DA-110/5 PAIR 110 OHM BLUE LSOH - 500M	100662

Technical Data

Argosy DA-110/5 Pair 110 OHM Blue LSOH Specification

Conductor: 1/0.40mm copper	Impedance: 110 ± 10 Ω @ 15 MHz
Screen: Double tape with drain	Cross Talk: 25dB
Insulation: 0.88mm PE	Velocity: 66%
Jacket: Blue LSOH	Minimum Bend Radius: 0.D x 8
